

Notice Regarding COVID-19:

As the unprecedented economic impact of the fast-changing COVID-19 pandemic shifts, SLS continues to evaluate conditions and make temporary adjustments to its operations according to guidance and direction provided by local, state and national government officials, as well as the top health organizations.

Maintaining a clean and safe work environment is an ongoing priority at SLS, but considering the current environment, we have introduced more frequent sanitization efforts at all our facilities. We are proactively promoting CDC COVID-19 prevention tips and asking our associates to evaluate their health on an ongoing basis.

In addition, we are employing social distancing practices at our facilities, like staggering work hours, and offering associates the opportunity to work remotely when possible. We are committed to doing everything necessary to protect our customers and associates, and to do our part in preventing transmission of Coronavirus.

SLS will remain open in support of our clients ruled as essential businesses.

Respectfully,

Morgan Hudson

Director of Operations

“Tough times never last, but tough people do.” – Robert H. Schuller
